

**GLOBAL LEADERSHIP SUMMIT:
CREATING A SUSTAINABLE FUTURE**

Leadership Conference, Amsterdam, The Hague & Brussels

Explore sustainability through the perspectives of local, national, and global governments on this trip through Europe. Your first stop is Berlin, where you'll come together with students and teachers to focus on *Creating a Sustainable Future*. Head to Amsterdam: home to winding canals and forward-thinking citizens. Learn about the Dutch city's approach to sustainability from a local organization (and be sure to stop for a stroopwafel, too) before journeying to The Hague, "The International City of Peace and Justice," to think globally about human rights. Then, head to Brussels—center for European culture, international institutions, and amazing chocolate. Here, you'll learn about the important role Brussels plays in the European Union and the steps Europe is taking to achieve a more sustainable future.

12 DAY TOUR: JULY 13–24, 2023

Creating a Sustainable Future

Our world is constantly changing, along with our priorities, our plans, and our future. When it comes to building a sustainable future, what we do today matters. The first step? Defining what sustainable living means for you—whether it's promoting peace and justice, protecting education and the environment, or preserving language and culture. Our 2023 Global Leadership Summit will explore the importance of *Creating a Sustainable Future* and the power we have to create long-term change through our daily actions. Sound big? It is. But together, our impact is bigger.
